

TRINITY LUTHERAN SCHOOL

2440 Hilltop Drive
Redding, CA 96002
530/221-6686

Dear Parent/Guardian:

The Healthy Schools Act of 2000 was signed into law in September 2000 and required that all public schools and as of January 1, 2007 all private schools provide parents or guardians of students with annual written notification of expected pesticide use on school site. The notification will identify the active ingredient or ingredients in each pesticide product and the Internet address (<http://www.cdpr.ca.gov>) may be used for further information on pesticides and their alternatives. We will send out annual notifications starting August 2007.

On an as needed basis, lawn pesticides are sprayed monthly on Wednesday evening after school, while each month pesticides will be sprayed at school site after school hours. We will post a list of all pesticides used at our site at least 24 hours before pesticides are applied and 72 hours after pesticide application.

If you have any questions, please contact Denise Killgore at 221-6686 ext 218.

Sincerely,

Denise Killgore
Trinity Lutheran School and Preschool
